Abstract

Summarize the problem, approach, key results, and conclusions in one paragraph. Keep this template's IMRaD section titles if you plan to switch templates later— PrismNext can preserve matching sections when merging.

1 Introduction

State the problem, situate related work, and list contributions. Cite with **key**.

2 Preliminaries

Notation and background needed for the results.

3 Main Results

Theorems, proofs, and analysis. Example:

Theorem 3.1. *A placeholder theorem statement.*

4 Discussion

Interpret results and limitations.

5 Conclusion

Summary and future work.
